

PLUMBING COLLECTION

STONE GLASS COPPER BAMBOO STAINLESS PORCELAIN FAUCETS

Yosemite National Park

Yosemite National Park embraces almost 1,200 square miles of scenic wildlands stretching along California's eastern flank. In 1890, at the urging of environmental trailblazer John Muir and his colleagues, an act of Congress was passed creating Yosemite National Park, setting aside and protecting this unforgettable portion of the central Sierra Nevada for future generations. This diverse park ranges from elevations of 2,000 feet above sea level to more than 13,000 feet and is blessed with numerous attractions; alpine wilderness, three groves of Giant Sequoias, and the stunning Yosemite Valley, encircled with towering granite walls, unusual rock formations and majestic waterfalls.

Yosemite Valley "The Incomparable Valley", as it has been called, is possibly the world's best known example of a glacially carved canyon. Its cascading waterfalls, towering cliffs, granite domes, and striking monoliths make Yosemite a world renowned natural wonder. For over a hundred years, Yosemite's many attributes have inspired poets, painters, photographers, and millions of visitors.

The valley is a mosaic of open meadows sprinkled with wildflowers and flowering shrubs, oak woodlands, and mixed-conifer forests of ponderosa pine, incense-cedar, and Douglas fir. Wildlife, such as the monarch butterfly, mule deer, and black bear flourish in these diverse environments. Nowhere else in the park is the sense of scale so dramatic as when viewed from the valley floor. Massive granite walls rise vertically over 3000 feet on either side showing off nine magnificent waterfalls cascading into the valley, five of which are over 1000 feet high including the 2425 foot Yosemite Falls.

Fresno is known as the "Gateway to Yosemite". We are sure you will find the extraordinary beauty and unsurpassed quality of our Yosemite products to be a reflection of the unrivaled beauty and uniqueness of their namesake . . . Yosemite.

4250 West Shaw Avenue
Fresno, California 93722
Telephone: 1-800-305-9872
Fax: 559-276-8738

Wholesale Only

Yosemite sells products for business use to customers with business identification. Identification required from all customers. Possession of, or access to, any Yosemite catalog, literature or websites does not constitute the right to purchase from Yosemite Home Décor. Yosemite reserves the right to correct publishing errors. Prices listed are wholesale, do not include freight, and are subject to correction or change without notice. Customers are responsible for all applicable taxes or for providing a valid sales tax exemption certificate.

Payment Terms

Yosemite accepts cash, checks, money orders, Visa, Discover, MasterCard, American Express and Electronic Funds Transfer (EFT). Credit card payments require a signed credit card authorization form giving us permission to charge at time of order. Product will be held until payment is made or terms are issued. Checks are only accepted from customers located within the United States and are subject to a holding period of 10-14 business days to allow time for funds to clear. Dealers may qualify for net 30 terms with approved credit. When applying for credit we require a completed and signed Yosemite credit application with trade references. For customers with established Yosemite credit, payment terms are net 30 days from the date of shipment or pick-up. If customer fails to make payment within thirty (30) days Yosemite may defer future shipments until such payment is made, or may, at its option, cancel all or any part of unshipped orders and account will be subject to finance charges of 1.5% per month.

Minimum Order

Any order that is less than \$150.00 will have a service charge of \$15.00

Freight Policy

Shipping Charges

Products are shipped F.O.B. from Fresno, California or Memphis, Tennessee. Freight costs will be paid by Yosemite and charged to the customer unless order qualifies for free freight. C.O.D. shipments are not permitted

Stainless steel sinks, glass vessels, faucets, and copper vessels are shipped freight prepaid regardless of quantity. Pop up drains and accessories are not included unless ordered with sink. Freight for stone vessels is capped at 10% of the item's cost. Customers may combine all of the above with any other product category to meet the free freight requirements.

Freight Policy continued

Other terms and conditions may apply for freight collect, special handling, or shipments outside the contiguous United States. Any extra charges incurred for additional services, including but not limited to customer's carrier or special handling by the carrier (lift gate, residential charges, etc) will be billed to the customer. Title and risk of loss pass to the customer upon tender of shipment to the carrier. If product is damaged in transit, customer must file a claim with the carrier. Customer must file within 10 days of receipt of shipment to our customer services department for incorrect orders. Otherwise our responsibility stops at that time and the order is acknowledged as shipped correct. Shortages must be reported within 24 hours of receipt.

Return of Merchandise

Products are not to be returned without written authorization from Yosemite Home Décor with an authorization number (RA). Any items sent to Yosemite Home Décor without an authorization form will be refused. If the return is approved the following will apply:

1. No charges will apply to product that is considered defective, however non-defective items must be paid for as scheduled.
2. Items that have an RA number and are returned within 6 months of purchase will be charged a restocking fee of 25% plus freight. In order to receive credit, the item must be returned freight prepaid in its' original packaging and in resalable condition.
3. Items will be inspected and photographed by Yosemite Home Décor upon return. Credit may not be given if Yosemite Home Décor deems the damage to be a result of misuse or poor return packaging.
4. NO credit will be issued if the item returned is missing any parts, packaging or incomplete in any way.
5. Return Authorization (RA) number must appear on all return paperwork and cartons.

Delivery Schedule

We will normally process and ship your order within 48 hours. We do not control delivery schedules by the carrier but make every attempt to use the carrier that provides the best service.

Damages

It is our goal to provide quality products to our customers. All of our factories carefully inspect each item before it is packaged and shipped to our warehouse location. Every effort will be made to insure that your order arrives safely. Inspect your shipment immediately upon arrival. Should exterior damage to the carton be visible, make a notation on the shipper's delivery ticket. Report any losses or damages to us at our office at once and notify the carrier. All damaged cartons should be saved until the claim is settled. It is the customer's responsibility to handle any claims for freight damage or missing items. We are not responsible for any freight errors after the item has left our warehouse.

Yosemite Limited Warranty

All products sold are warranted by Yosemite only to original customers against defects in workmanship or materials under normal use for the period of time as designated below. Any product determined by Yosemite to be defective in material or workmanship and returned to a Yosemite branch or authorized location, as designated by Yosemite, will be either repaired, replaced, or purchase price refunded at Yosemite's option. Please contact Yosemite at: service@yosemitechomedecor.com 1-800-305-9872 Toll Free

Stone and Bamboo Sinks

Yosemite Home Décor offers a limited 10 year warranty on the structure of the sink. Each sink is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect in the sink for a period of 10 years from the date of purchase.

This limited warranty does not include attachments to the sink such as plumbing, fittings, and other apparatus.

Natural stone sinks are highly durable but can scratch and dull over time. If the proper care is followed your natural stone sink will maintain its original luster for years to come. Yosemite offers a 1 year limited warranty on the interior surface against defect in the natural stone beyond normal wear and tear. If proper maintenance of the sink is not followed the warranty will be void.

Glass Sinks

Yosemite Home Décor offers a limited 10 year warranty on the structure of the sink. Each sink is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect in the sink for a period of 10 years from the date of purchase.

Stainless Steel Sinks

Yosemite Home Décor offers a limited 10 year warranty on the structure of the sink. Each sink is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect in the sink for a period of 10 years from the date of purchase.

Copper Sinks

Yosemite Home Décor offers a limited 10 year warranty on the structure of the sink. Each sink is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect in the sink for a period of 10 years from the date of purchase.

Faucets

Yosemite Home Décor offers a limited lifetime warranty on the structure of the faucet. Each faucet is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect.

Porcelain Plumbing

Yosemite Home Décor offers a limited 1 year warranty on the structure of the sink. Each sink is warranted to retain its structural integrity and configuration, and to be free of water loss due to defect in the sink for a period of 10 years from the date of purchase.

In no event will Yosemite Home Décor be liable for the cost of repair or replacement of any installation materials, including but not limited to, granite, tile, marble, cabinets, countertops, etc.

Care and Maintenance

Stone Sinks

To maintain the beauty of your granite, marble, onyx, or travertine sink we recommend you wipe the sink down after each use with a soft cloth. In addition, clean regularly with granite or marble cleaner. Note that stone surfaces can be easily etched by cleaning products containing acids. Clean, polish and seal only with products meant for natural stone materials. Wipe your stone sink often so that it does not accumulate soap scum. With proper care, stone sinks can add elegance to your bathroom for many years.

Bowls and sinks made of granite and natural stone are popular in home interiors. With proper maintenance these beautiful natural materials will stay beautiful for years to come. Many homeowners are unaware that ordinary household cleaners break down the protective sealer that is applied to granite and natural stone, allowing stains to set, dulling the surface and increasing the likelihood that stone will have to be refinished, refurbished or replaced – a costly venture. Granite Gold stone care products safely clean and condition sinks and bowls made of natural stone, including granite, marble, travertine, quartz surfaces. Granite and natural stone are durable, but need proper care to maintain their inherent beauty. When treated properly, they are a low-maintenance surface that will hold its luster longer and can increase the value of your home. Granite Gold's ammonia-free, inexpensive stone care products protect and extend the life of stone bowls and give consumers high quality cleaning power. Granite Gold stone care products are specially formulated and developed by stone care professionals with more than 50 years of experience in the natural stone industry. Natural stone is one of the most popular choices when installing new sinks and bowls. Everyday household cleaners contain chemicals that can damage your stone and cause expensive repairs or replacement. Granite Gold stone care products are safe and non-toxic, protecting your investment in natural stone.

Bamboo Sinks

Bamboo is a strong material sure to stand the test of time, however, to keep your sink looking its best there are a few tips to follow. Annually protect your sink with a carnauba wax for protection. Clean your bamboo sink with warm water and a mild soap. Do not use ammonia-based cleaning products as they will soften the oil finish with frequent use. Try to avoid allowing water or soap stand in your sink for long periods of time and wipe up excess soap immediately. Following these simple tips will help your sink retain its original beauty for years to come.

Glass Sinks

Dry your sink with a non-abrasive cloth after each use to prevent water spots from forming on the surface. If spots or fingerprints are visible on the surface of your sink you may use Windex or a comparable glass cleaner. Make sure you don't let cleaner accumulate in the sink after cleaning, rinse thoroughly and wipe dry with a non-abrasive cloth or paper towel. Newspaper can also be used to wipe the sink clean. Clean the sink regularly to keep from forming any mineral or bacterial buildup.

Stainless Steel Sinks

Clean your stainless steel sink with a soft washcloth and warm water, wiping the sink in the

direction of the polish marks. Use another soft towel to dry the surface once cleaned. If left to air dry stainless steel sinks may spot and streak. When regular dish soap doesn't remove grease and grime you may use white vinegar then rinse with warm water and towel dry. Stainless steel is durable, but not indestructible. Never use cleaners that contain chlorine or bleach as they can damage your sink. Also avoid steel and wool scrub brushes as they can leave scratches, use a soft towel instead. Lastly, rather than leaving wet sponges in your sink we advise that you use a cup or plate to avoid constant wetness to reduce the risk of rust from long-term exposure to water.

Copper Sinks

Copper is naturally biostatic, which is a unique antibacterial advantage over other types of sinks. This means that bacteria will not grow on its surface because it is inhospitable to the growth of Legionella and other bacteria. The antimicrobial properties of copper are effective against MRSA, Escherichia Coli and other pathogens and the effects are sped up with the use of warm water. Bacteria is shown to live only for a few hours on a copper sink vs. days on a typical steel or stone basin sink.

Cleaning a copper sink is easy – just wash with a mild soap to prevent water marks or lemon juice to help lift stains.

Wiping down your sink with a nonabrasive cloth after each use is the best preventative way of keeping your copper sink free of water spots and corrosive acids. Polishes and waxes are available to help maintain the color and shine of your new copper sink.

Tips from plumbing care professionals:

- Clean spills as soon as possible. Blot, don't wipe.
- Do not use plain dish soap as it leaves streaks and residue that quickly attracts dirt.
- Never use everyday household cleaners which contain ammonia and other harmful chemicals that will break down the protective sealant, making surfaces susceptible to staining and fading over time.
- Protect natural stone by sealing every 12-18 months using Granite Gold Sealer.
- Use Granite Gold Polish on stone sinks weekly to help prevent soap scum and water spots.

IAPMO RESEARCH AND TESTING, INC.

5001 East Philadelphia Street, Ontario, California 91761-2816 • (909) 472-4100 Fax (909) 472-4244 • www.iapmo.org

CERTIFICATE OF LISTING

IAPMO Research and Testing, Inc. is a product certification body which tests and inspects samples taken from the supplier's stock or from the market or a combination of both to verify compliance to the requirements of applicable codes and standards. This activity is coupled with periodic surveillance of the supplier's factory and warehouses as well as the assessment of the supplier's Quality Assurance System. This listing is subject to the conditions set forth in the characteristics below and is not to be construed as any recommendation, assurance or guarantee by IAPMO Research and Testing, Inc. of the product acceptance by Authorities Having Jurisdiction.

Product:

Plumbing Fixtures (Stainless Steel)

File No. 7079

IDENTIFICATION:

Each fixture shall be permanently and legibly marked with the manufacturer's name or trademark, the date of manufacture, and, for special-purpose sinks, the letter "N". The product shall also bear the cUPC® certification mark. Markings shall be applied so as to be visible after installation.

CHARACTERISTICS:

Stainless steel plumbing fixtures may include kitchen sinks, bar sinks, and lavatories. To be installed in accordance with the manufacturer's instructions and the requirements of the latest edition of the Uniform Plumbing Code.

Products comply with the applicable sections of the latest edition of the Uniform Plumbing Code®. Models listed to the National Plumbing Code of Canada and Relevant Canadian Standard(s) shall bear the cUPC® mark of conformity. Manufactured in compliance with ASME A112.19.3-2008/CSA B45.4-2008.

David McKinley
Chairman, Product Certification Committee

Russ Chaney
CEO, The IAPMO Group

For the most accurate and updated information please visit <http://pld.iapmo.org/7079>

This listing is for the period indicated herein and is void when the date shown above. Any change in material, manufacturing process, marking or design without having first obtained the approval of the Product Certification Committee, or any evidence of non-compliance with applicable codes and standards or of inferior workmanship, may be deemed sufficient cause for revocation of this listing. Reproduction of or reference to this form for advertising purposes may be made only by specific written permission of IAPMO Research and Testing, Inc. Any alteration of this certificate could be grounds for revocation of the listing.

Yosemite Home Décor brings you a tub, shower head and faucet that has style and appeal. The YP57TS will give your bathroom modern flair with its Oil Rubbed Bronze, Polished Chrome and Brushed Nickel finishes that can be matched easily with almost any modern bathroom interior. More important than the aesthetics are the shower set's safety features. The YP57TS is pressure balanced, which means that despite the changes in water delivery pressure, you will get constant water temperature. This prevents incidents where your water is too hot or too cold. The shower set also comes equipped with a temperature limit stop. You can easily adjust the maximum hot water temperature for the water that flows out of the showerhead or tub spout. This prevents accidental burning from scalding water. You get a total value for your money with the style, functionality, and safety.

Description

Single Handle Pressure Balanced Tub and Shower

Features

Pressure balanced.
Temperature limit stop.
Integral stops.
Solid brass waterway construction.
100% pressure system tested.

Dimensions

Dimensions

2 ¾" shower head diameter
7 ¾" shower head spout reach
6 ¾" plate size diameter

Finish Options

Oil rubbed bronze finish

Yosemite Home Decor's YP57SO brings you a shower set that gives you great value for your money. It has sophistication, functionality, and safety in one package. You will appreciate the design of the shower set, with its oil rubbed bronze finish. The color will definitely give your bathroom a modern touch.

In addition to the beautiful design, the set also has modern safety features. This pressure balanced faucet prevents the water from changing temperature despite change in delivery pressure. The built-in temperature limit stop will allow the user to set the maximum hot water temperature. All these features prevent any injuries caused by scalding water. This item is cUPC certified.

8" widespread (YPLMK-828)

1" overflow-hole

Dimensions

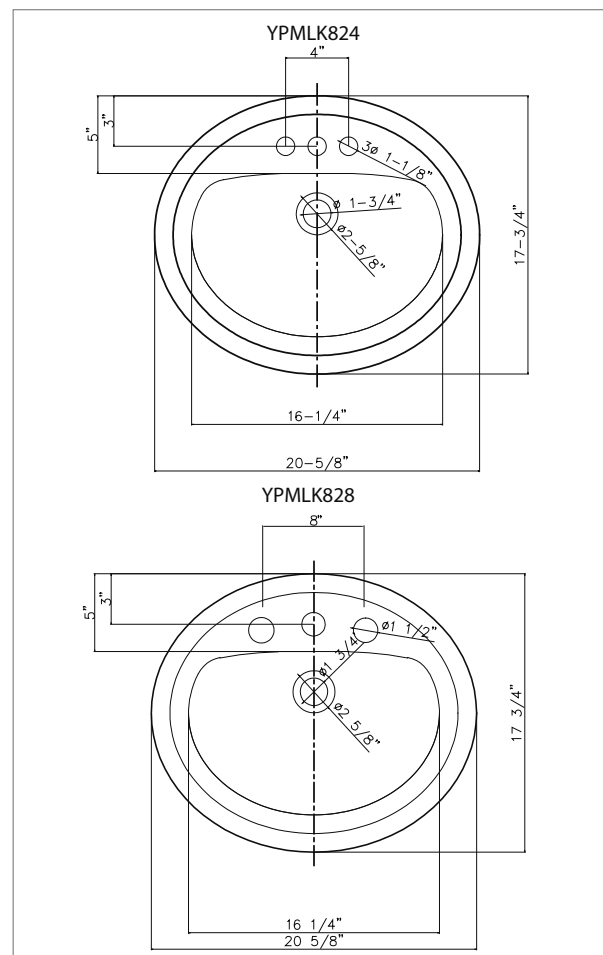

20 1/2" W x 17 3/4" D x 8" H

Finish

Porcelain white

Installation

Drop-In installation

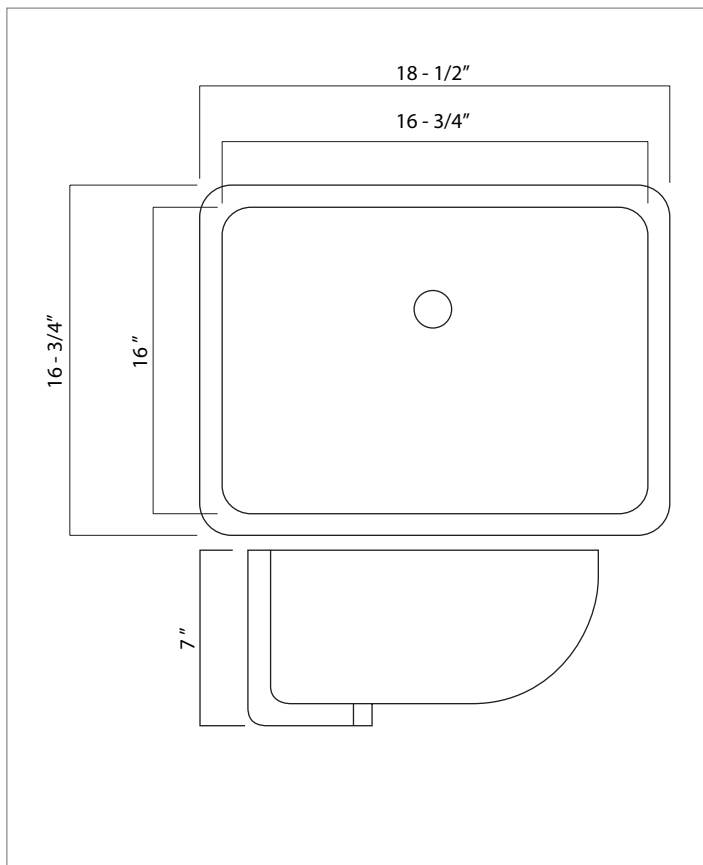

YPLMK-010-WH and YPLMK-010-IV

*YPLMK-010-WH

*YPLMK-010-IV

Description

Porcelain Rectangular Undermount Sink

Features

With mounting brackets

Dimensions

18" W x 15" D x 7 1/2" H

Finish

White (YPLMK-010-WH)

Ivory (YPLMK-010-IV)

Installation

Undermount installation

YPLMK-518-W

Description

One-Piece Toilet

Features

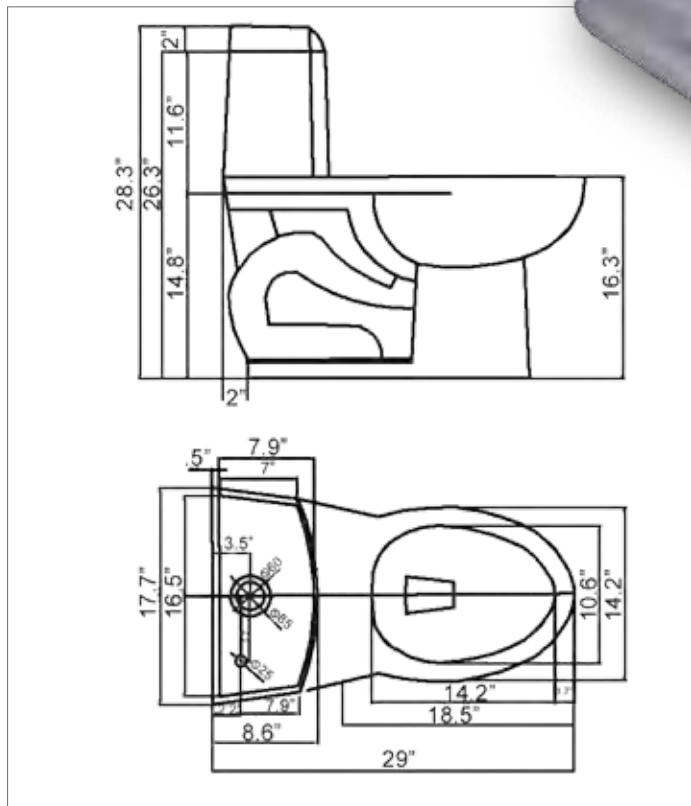

Water conserving dual flush button.
Slow close seat cover.
1.6 gallons per full flush.
0.8 gallons per half flush.
UPC certified.

Dimensions

14 1/4" W x 29" D x 28 1/2" H
2" Trapway

Finish

Porcelain white

YPLMK-3071-WH

Description

Elongated Two-Piece Toilet

Features

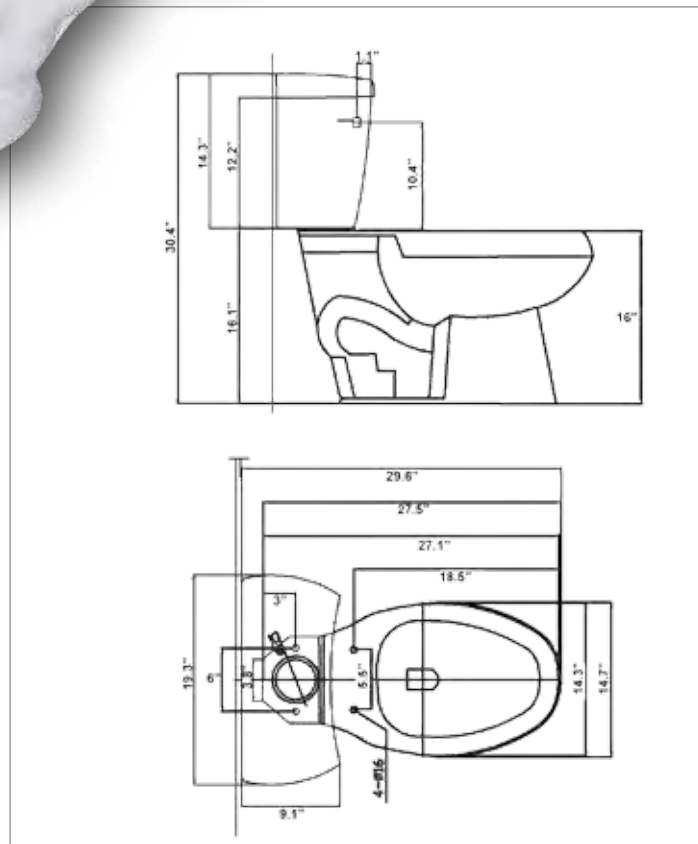

Water saver two piece flush button.
 $\frac{3}{4}$ gallon and $1 \frac{1}{2}$ gallon water fitting.
 Slow close seat cover.
 UPC certified.

Dimensions

$14 \frac{3}{4}$ " W x $29 \frac{1}{2}$ " D x $30 \frac{1}{2}$ " H
 2" Trapway

Finish

Porcelain white

YPLMK-311-WH

Description

One-Piece Toilet

Features

Water conserving dual flush button.

Slow close seat cover.

1.6 gallons per full flush.

0.8 gallons per half flush.

UPC certified.
